

NEBRASKA DRUG DISCOVERY & DEVELOPMENT PIPELINE

SPEAKERS

Plenary Speakers

CRAIG CREWS, PHD

Executive Director, Yale Center for Molecular Discovery

*John C. Malone Professor of Molecular, Cellular, and Developmental Biology and Professor of Chemistry, of Pharmacology, and of Management
Yale University*

Founder: Arvinas, Halda, Siduma

Expertise: "Drugging the Undruggable" - PROTACS & proximity inducers

MATTHEW DISNEY, PHD

Institute Professor & Chair, Department of Chemistry

*Associate Editor, Journal of the American Chemical Society
The Herbert Wertheim UF-Scripps Institute for Biomedical Research & Innovation
The Scripps Research Institute*

Expertise: RNA as a Drug Target-The New Frontier?

Featured Speakers

University of Nebraska Medical Center

REBEKAH GUNDRY, PHD

Director, Center for Heart and Vascular Research

Stokes-Shackelford Professor and Chair, Department of Cellular & Integrative Physiology

Expertise: "Surfaceomics" - Mass Spec-Guided Approaches to Novel Therapeutic Strategies

University of Nebraska - Lincoln

OLEH KHALIMONCHUK, PHD

Director, Redox Biology Center

Susan J. Rosowski Professor, Department of Biochemistry

Expertise: All Things Mitochondria - New Angles to Control ROS & Combat Disease

LINDSEY CRAWFORD, PHD

Assistant Professor, Department of Biochemistry

University of Nebraska - Lincoln

Expertise: The Interplay of Viral Biology & the Human Immune System

CATHERINE EICHHORN, PHD

Assistant Professor, Department of Chemistry

University of Nebraska - Lincoln

Expertise: RNA Structural Dynamics & Molecular Recognition

JINGJING SUN, PHD

Assistant Professor, College of Pharmacy

University of Nebraska Medical Center

Expertise: Nanocarriers for Drug Delivery
